Distributed Bioreceptive Modules for Urban Ecology: An Open-source Toolkit for Citizen Participation

Observation Sheet

Date	Oct 27, 2026
Recorder	Person
Site ID	Site 1

Environmental conditions

Please mention the cloud coverage and moisture conditions that you notice today.

Observed organisms

List organisms identified with photographic evidence. You can mark identifications as uncertain. An expert can have a look at them! We appreciate photographs taken from consistent viewpoints.

[Include the name of the species identified]

[Include the name of the species identified]

[Include the name of the species identified]

Module condition

What Do you notice any damage or material deterioration of the modules? Your observations will help us in maintenance towards repairing or replacing the modules. Please add photographs here, if necessary.

Observer comments

What did you observe? Are there any visible colonisation on the modules? Do you notice changes from your last observation visit?
